

BANNER STAND ASSEMBLY INSTRUCTIONS

1 Bag containing hardware.

2 Remove contents from the bag.

3 Slide foot connector through bottom of the hole on steel foot.

4 Screw one of the longer poles counter clockwise onto connector. Use your finger to hold steady.

5 Repeat steps 3-4 with the other Steel Foot.

6 Place the Steel Feet with Poles on the ground next to each other as shown above.

7 Connect top poles by finding the male and female pieces. Repeat for bottom poles.

8 Adjust the top and bottom poles to the correct width.

9 Connect the bottom pole to the left and right pole using the connector knobs.

10 Connect the top pole to the left and right pole using the connector knobs.

11 Adjust the left and right pole up or down to the correct height.
